

USING YOUR ROZEBUDS

1. PAIRING / TURNING ON THE PHONE

- Hold down **Logo button** for 4 secs to power on and then hold down further 2 secs to get into pairing mode
- **Charge Lights** will alternate to show it is searching for your device
- Go to Bluetooth settings on your device
- Select "ROZEBUDS"
- If needed, pairing code is "0000"

2. POWER ON / OFF

- To power on hold down **Logo button** for 4 secs
- **Charge Lights** will flash and voice signal will say "power on"
- Once connected to your device voice signal will say "your device is connected"
- To power off hold down **Logo button** for 4 secs
- **Charge Lights** will flash and voice signal will say "power off"

3. AUDIO FUNCTIONS

- Hit play button on your device to start whatever you'd like to listen to
- Connect **Ear buds** to pause, or short click **Logo button**
- Disconnect **Ear buds** to play, or short click **Logo button**
- Long press **Controls** to increase or decrease volume
- Short click **Controls** to skip and rewind track

4. PHONE FUNCTIONS

- If listening to music when call comes in short click **Logo button** to answer
- Long press **Logo button** to skip call (or just ignore it)
- If wearing necklace when call comes in, disconnect **Ear buds** to answer
- Speak into **Phone mic**
- Click **Logo button** to end call or just wait for other person to hang up
- If you were listening to music when call came in, your device will automatically start back up when call ends
- If you do not want to listen to your device at the end of the call, connect **Ear buds** to end call and go into standby mode

5. CHARGING

- To charge RozeBuds device, insert charge cord into **Micro USB charge port**
- **Charge lights** will show extent of charge
- To see extent of charge, hold down (+) and (-) **Controls** together

6. WEARING

- Before inserting **Ear bud** into ear, make sure that **Ball joint** is facing downward. The cord needs to face 90° downward in order for the **Ear bud** to get properly situated in your ear
- Insert **Ear bud** into ear canal with ball joint facing downward and move it around (if necessary) until it feels secure in your ear and the cord is at 90°. You'll know if the ball joint isn't properly aligned as you'll feel a slight pull in your ear as the ball joint attempts to straighten on its own

WEARING YOUR ROZEBUDS

1. Ensure cord is pointing straight down
2. Ensure earbud is inserted at correct angle
with 1 of these 3 options:

Option A

FOR TIGHTEST FIT AND BEST AUDIO EXPERIENCE

Insert bud deep into ear canal

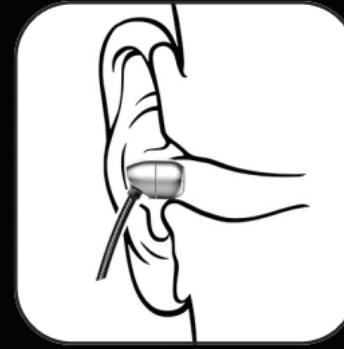

Option B

FOR INCREASED COMFORT

Place bud at entrance of ear canal

(not recommended for working out)

Option C

FOR BEST COMBINATION OF AUDIO AND COMFORT

Insert bud facing up towards top of ear canal

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
